

DODGE ALIMONY IS SCOTT'S PLAN, CHARGE OF WIFE

Sensational Developments Promised When the Divorce Trial Begins.

"The injunction my husband, Winfield Scott, is seeking through the courts to restrain me from anything or bringing any action against him, is nothing but a subterfuge to avoid contributing to the support of our daughter," said Mrs. Ada M. Scott in discussing the latest development in the Scott divorce proceedings last night.

Mrs. Scott says that sensational developments may be expected October 15 when the injunction proceeding is set for a hearing before Judge Gould. Scott, in his petition, which is supplementary to the divorce filed by him in the Chicago courts last week, says he has been followed, threats have been made against his life, statements have been made regarding his conduct, and otherwise subjected to indignity and annoyance on the part of the defendant and her attorney, and others, without cause.

Wants Injunction.

He asks the court to prevent his wife having him arrested or from bringing any action against him.

"The charges are all untrue," said Mrs. Scott, "and Victor H. Wallace, my attorney, who is named with me as being guilty of these things, will demand that Mr. Scott prove them. It is all occasioned by a notice served upon my husband that I would insist that he contribute to the support of our seven-year-old daughter, which he declined to do October 10.

"I served him with a notice that I would prefer a charge of nonsupport against him and he has taken this means of temporarily getting around payment. All the other charges are ridiculous, as neither I, my attorney, nor any one else has followed him, annoyed him or threatened his life."

Alimony Ordered.

Mr. Scott states in his petition that pending the adjustment of the Chicago suit he has been ordered to pay Mrs. Scott \$10 per week alimony, which he intends to do. Mrs. Scott says that as soon as the alimony was assessed against her husband their daughter was informed by him that he "played quits," and that she need expect no further assistance from him.

Mrs. Scott, who recently made an emphatic denial of the sensational allegations filed by her husband in the Chicago courts, said last night that at the proper time she would present such evidence as would defeat both the Chicago and Washington suits.

"The aspect of the whole disagreeable affair will be changed when I am able to show my hand," she said, "and until then I shall have to be content with knowing that I am innocent of my husband's charges and that the whole case is 'trumped up' to avoid the payment of my alimony."

Mr. and Mrs. Scott have been separated for several years. They are residents of Washington. Mr. Scott holds a position in the Department of Commerce and Labor.

ALLEGED CHECK KITER HELD IN \$2,500 BOND

George Otto Frederick Kramer, alias Dr. F. W. Stoermer, alias Count von Berghelm, alias Count von Wittgenstein, who is wanted here for the alleged passing of two worthless checks, and who was arrested in Baltimore several days ago, was given a hearing yesterday before United States Commissioner Rogers.

Kramer was held in \$2,500 bond for the District authorities, and will be brought to Washington Monday or Tuesday. Detective Burlingame was present at the hearing.

TEACHERS' PAY COMES TOMORROW; "GHOST" SKIPS 20

Pay for the District school teachers tomorrow morning at 9 o'clock.

All of them, except twenty, will be paid off tomorrow as rapidly as possible. This is because, at a conference late yesterday afternoon between Capt. James F. Oyster and District Auditor Alonzo Tweedale, Mr. Tweedale said that all the rolls of the teachers' pay would be accepted as correct except those of twenty teachers who were appointed to positions between September 1 and September 21.

These twenty, which the Auditor still finds deficient on the rolls, will be corrected without trouble tomorrow. It is believed, and the twenty teachers delayed in getting their pay will be paid Tuesday or Wednesday.

This happy solution of the problem of hurrying forward the pay of the teachers comes as one of the hardest jobs the clerical force of the Board of Education has ever had. The difficulty arose from the complicated form in which the rolls have to be made out, according to the new rules.

One result of the settlement is that Captain Oyster, who has remained here to see that everything possible was done to hasten the payments to the teachers, will be able to leave Washington today to go to a dairymen's convention in Chicago, which he has been anxious to attend. Mr. Scott holding a position in the Department of Commerce and Labor.

Nothing will be done in the charges against Calvin Chase, the colored lawyer, that he received fees for retaining colored persons in the employ of the schools, until Captain Oyster returns from his trip, which will be in a few days. He will then get his special committee together to sift the matter to the bottom. In the meantime, Superintendent of Schools Chancellor is doing some quiet investigating.

SCHOOL TEACHERS OFFERED CHANCE

A number of examinations, including that for the principalship of Normal School No. 2, are announced for November 8 and 9 by the Board of Examiners for Colored Schools.

The Normal School examination will revive the hard fought Moten case which has been before the Board of Education several times. There is at present a recommendation of the superintendent upon the minutes providing that if a suitable applicant is found Miss Lucy Moten, the principal of the school, will be succeeded by the successful applicant, the reason for the proposed removal being Miss Moten's physical incapacities. At a former examination no applicant passed and Miss Moten accordingly holds the place.

Several titles have occurred between board members regarding the Moten case and her friends upon the board have succeeded in preventing definite action up to this time.

The other examinations announced are:

Eight grade principalships in elementary schools.

Teachers of history, physics, civics, and commercial geography, and typewriting in high schools.

Teachers of bookkeeping.

Clerk and librarian.

Due consideration will be given teachers in the Washington public schools who qualify and pass satisfactory examinations. Teachers of intermediate grades have been advised by the board to enter the examinations for eighth grade principalships.

MAGILL PROFANE, WITNESS ASSERTS

Swore Over Wife's Coffin, Says Neighbor, Who Saw No Tears.

State Endeavors to Show Intimacy With Girl He Married.

DECATUR, Ill., Oct. 12.—Judge Cochran today adjourned the trial of Fred H. Magill, formerly a banker, and his young wife, Faye Graham Magill, charged with the murder of Mrs. Pet Magill, until Monday morning.

There was not a great deal of substantial testimony adduced by the State in its attempt to show that Fred Magill and Faye Graham administered the chloroform. Nor was the evidence strong showing that they had conspired to put the woman out of the way.

"That will come Monday," said District Attorney Redmon, of Decatur, assisting the prosecuting counsel. "We are simply going along revealing the intimacy existing between Magill and Faye Graham, thus establishing the motive for the crime. Monday there will be sensational."

Seen Near Girl's House.

Mrs. Fred Fline, of Clinton, testified that between 1:30 and 10 o'clock on the night of May 30, when Mrs. Pet Magill died, she saw Fred Magill three blocks away from his home, coming from the direction of Faye Graham's home.

Mrs. N. P. Rundie, testifying as to the defective eyesight of Mrs. Pet Magill, said: "She told me she could not put on her shoes without her glasses." Dr. Meyer, her physician, declared that if she were without them for five minutes their absence caused her violent retching of the stomach. "She would vomit and go into hysterics without them," he said.

Swore Over Wife's Coffin.

Mrs. Louise Blome, one of the first callers at the Magill home the morning after Mrs. Magill's death, when asked if she saw any one weeping, replied that she had not. "Neither Magill nor Faye shed any tears," she said.

"What was Magill's attitude?" she was asked.

"Oh, he walked nervously up and down the parlor floor, and now and then exclaimed, 'Damn it all!'"

Mrs. Maude Felner, the marriage license clerk of Decatur, who issued the license for Magill and Faye Graham, testified that Magill, under oath, had said that he was a resident of Decatur, and that the girl was a resident of Chicago.

MONTGOMERY POLITICS BEGINNING TO SIZZLE

ROCKVILLE, Md., Oct. 12.—Interest in county politics, which has been slack in both parties, has been somewhat aroused by the estimated results of the revision of the registration lists, which is now nearing completion. The Democrats claim that they have made large gains in registration, and that the Republicans have suffered a considerable loss. The latter concede eight gains on the part of their adversaries, but insist that they have at least held their own in the revision.

It is a fact that the colored vote of the county, which is classed as Republican, has of late been steadily on the decrease, being now about 200 less than it was five years ago; but the Republicans assert that this decrease has had no apparent effect upon their vote at recent elections, and point to the fact that their candidate for Congress received last year a majority of 200—a thing unheard of in the history of the county.

They claim that their party has gained large concessions from newcomers into the county, as well as from voters who formerly supported the Democratic party. It is upon this that they base their hopes of success at the coming election.

Mixture of Chinese And Hebrews Found, Asserts Bainbridge

Strange Race of People Who Date From A. D. 1368, and Are Prosperous and Numerous.

A strange race of people is revealed by Oliver Bainbridge in his article published in the October number of the National Geographic Magazine. According to the writer, there now exists in the city of Kaifengfu, in China, a race of people who are a mixture of the Hebrew and Mongolian races, known as the Chinese Hebrews.

Mr. Bainbridge declares that a piece of land was given to certain Hebrews in the vicinity of Kaifengfu by the Emperor Tai-Tsu of the Ming dynasty (A. D. 1368), on which the remnant of a Hebrew race settled.

In one portion of his narrative the writer repeats the story of a Chinese Hebrew as to their origin. The story of the Chinese Hebrew is as follows:

Were Rich and Numerous.

"My elder brother—I am not yet forty years old, but I have thought and talked much with my friends about our ancestors, who were rich and numerous and who worshipped in a fine synagogue, built on the land presented to them by the Emperor Tai-Tsu. This synagogue, which has been swept away by 'China's Sorrow' (the Yellow river), our ancestors came to this land from the northwest nearly 3,000 years ago, and had with them a roll of the law that was very ancient and in a language that we do not understand today, but which we have no teachers. The beautiful synagogue had a number of courts, and in the center of the first there was a large, noble arch, dedicated to the Creator, Preserver, and Father of all men. The second comprised sacred trees, and the houses of the good men who cared for the buildings. The third had many trees, and on its walls tablets in memory of our great Chao (a Hebrew name), judge, who rebuilt the synagogue on one occasion and other holy men. It was very large and contained the Hall of Ancestors, the brazen vases of flowers and the censers, in honor of Abraham and others. The nerves and sinews were extracted from animals slain for food in this court. The synagogue itself was small, but exceedingly beautiful, and in the center was the throne of Moses, a wonderfully carved chair, covered with emerald silk, upon which they placed the sacred book while it was read. Above the throne, in letters of gold, were wise and good words our ancestors brought from afar: 'Hear, O Israel: The Lord our God is one God, blessed be the name of the glory of His kingdom forever and ever,' and in another part of the synagogue, 'Blessed be the Lord forever; the Lord is God of gods and the Lord; a great God, strong and terrible.'"

Mr. Bainbridge says that on one occasion he was mistaken for a Hebrew

and narrowly escaped death at the hands of an enraged mob of celestials.

Of the strange race Mr. Bainbridge says further:

"The Confucians are more kindly disposed toward the Hebrews than the Mohammedans (who always pull their swords to one side if they meet a Hebrew, which in China is a vile insult); and so on visiting their temples I had no difficulty—in fact, one priest accompanied me to a small temple in the southeast corner of the city, where they have what is left of four large marble pillars, taken from the Hebrew ruins in the early part of the sixth century. It is interesting to note in Chinese history that at this time the Empress Dowager Ling, attended by the imperial consorts, ladies of the palace, princesses, and others of high degree, ascended a lofty hill and abolished the various corrupt systems of religious worship, excepting that of the foreigner who prayed toward the west."

On the second visit of the Hebrews to my house I expressed a desire to see their wives and daughters, and learned very promptly that it would be impossible, as the other Chinese women would say 'bad things' (the Chinese are undoubtedly the most evil-minded people on earth) and make their lives even harder to bear, but if I wanted to take a photograph (this was suggested with pecuniary anticipations), I might come to an appointed place in a closed cart with a peep-hole, and instruct my interpreter as to how the photograph was to be taken. I embraced the opportunity, and made an appointment for the following day, and secured fine pictures of the Hebrew women and children, who had never looked into the devil's glass before."
